

## ***Collect Donations Electronically With E-Giving!***

E- Giving is a great way to increase your weekly offerings, while at the same time, cutting down on administrative time and costs. Our electronic donation collection program offers:

- Electronic giving from donor's checking account or credit card.
- Daily online reports showing collections taken in for the previous day.
- Ability to add other collection funds such as building funds, missions fund, etc.

Donors access the secure site that is linked directly to your homepage!!

The church itself can expect a significant reduction in administrative work and costs by eliminating the need for church volunteers to count cash or check donations, or paying someone to administer the record keeping.

You can also increase your cash flow by capturing donations that would have been missed when someone goes on vacation, or may travel out of state for the winter. After the electronic donation is setup either on a weekly, bi-weekly, or monthly basis, the money will continue to be debited from the parishioners account until they request for it to be stopped. Parishioners can also choose to give one-time donations.

Christian Financial Credit Union has a dedicated business development team to provide full support for your E-Giving program.

**Please contact Christine Quitter, Business Development Officer for more information at 586-498-3079.**
